

RLV-1*

LED Hi-Vis Safety Vests

Comply with AS/NZS 4602.1 Class D/N

Australia Patent Number: 2012101877

Kinyun High Visibility Safety Vest with LED display lights now protects you in any situation. Forget passive reflective only Safety Vests, you do not have to rely on oncoming lights to generate short distance reflection any longer. This LED enhanced Safety Vest is perfect to highlight your presence making you clearly visible and safe at all times. The effective visibility range is up to 300 metres in clear conditions and new batteries. The Vest is powered by 2 AA batteries. Combining retro-reflective strips around your body provides you with 360 degree reflector and flashing LED lights for the best visual effect.

Passive Reflection
to incoming light

Active LED signal
without incoming light

Structure

Reflective LED strips run side-by-side with 3M Scotchlite retro-reflective strips over the shoulders and 14 LED lights are embedded within, and dotted along the back and chest strips. At the front waistband is an adjustable Velcro closure. A battery pouch and case housing two standard AA batteries are located at the front of the waist inside the vest. A push button switch is located on the battery case.
